

Alpine MDF Primed Mouldings are produced from premium quality, moisture resistant Medium Density Fibreboard (MDF) made in our manufacturing plant in North East Victoria. Alpine MDF Industries incorporates advanced computerised production controls to deliver consistency, performance and an excellent surface finish. Alpine MDF Primed Mouldings are suitable for interior applications and are available in a wide range of profiles to suit modern and traditional decors. Our mouldings are resistant to warping, twisting and are free of knots or imperfections to make installation easier.

- **Moisture Resistant** (Meets Australian Standard AS/NZS 1859.2)
- **E0** (Low Emissions)
- **Pre Primed** (High Quality primer for ease of painting)
- **Environmentally Friendly** (Made from sustainable, FSC® certified forests)
- **Australian Made**
